PROFILE

Ambitious entry-level software engineer with excellent problem-solving skills. Seeking an opportunity in software development to contribute reliable solutions and leverage technical skills for a company's success.

PURSUING

Java Enterprise Application Development Course, X-workz

06/2023 – present

SKILLS

Programming Languages :

Java | C++

Framework's :

Spring-Core | Spring-Web MVC | JPA/Hibernate

Web Technologies :

HTML | CSS | Javascript | Bootstrap | JSP

Database :

MySQL

Tools and IDE's :

IntelliJ Idea | VS Code | MySQL Workbench | Eclipse IDE

Version Control :

Git and GitHub

EDUCATION

B.E - 8.38 CGPA,

ISE - Sapthagiri College Of Engineering
2019 – 2023

TECHNICAL KNOWLEDGE

- Good Knowledge on concepts of Core Java.
- Good knowledge of Object-Oriented Programming principles.
- Implementation and usage of Collections and Exception Handling.
- Knowledge on Servlets, JPA(Hibernate-ORM tool), JSP and JDBC.
- Familiar with Spring Web MVC and Spring Core.
- Sound Knowledge on Java-8 features and MultiThreading.
- Understanding and usage of Design Patterns - MVC, Singleton and Beans/DTO.
- Good knowledge of SQL/Relational database like MySQL.
- Usage of DDL, DML, DQL, TCL commands.
- Knowledge on HTML tags, CSS properties and Javascript basics.
- Understanding and usage of Git, GitHub and Git commands.
- Having good interactions with IntelliJ IDEA, VS Code and MySQL Workbench.
- Using Maven - Build Tool and Apache Tomcat Server

PROJECTS

GOURMET, Spring Web Application

- The application was developed for cooking enthusiast, a home chef, or simply someone who loves delicious meals.
- "Gourmet" is the destination for exploring mouthwatering recipes.
- Technologies Used :
 - Backend: Spring Web MVC, Java,Hibernate/JPA
 - Frontend: HTML, CSS, Javascript, Bootstrap, JS
 - Database: MySQL

NAMMA METRO, Web Application

- "Namma Metro" is a web application designed to simplify the ticket booking process and enhance user management for the Namma Metro commuters.
- This platform provides commuters with a convenient and user-friendly way to book metro tickets and manage their user accounts.
- I have developed this project using Spring MVC framework, Java, Hibernate/JPA, JSP, MySQL, HTML, CSS, Bootstrap and Javascript.
